Preface	3
ANTHROPOPRESSURE EFFECTS ON NATURE	
<i>Rafał Bielecki</i> Areal Sea – the biggest ecological disaster of the century	6
<i>Tomasz Parusel, Dominik Karkosz</i> Contrasts in land use as a result of secular natural environment degradation – a case study of Mysłowice town area (Silesian Upland)	14
<i>Martina Škodová, Alfonz Gajdoš</i> Dynamics of changes in the structure of the forest edge in Slovakia	22
ENVIRONMENTAL VALUES ENDANGERED BY TOURISM DEVELOPMENT	
<i>Michał Apollo</i> Anthropopressure mountaineering on the example of Kilimanjaro	30
<i>Piotr Skóra, Wanda Wilczyńska-Michalik, Maciej Szpiech</i> Evaluation of the natural environment of the Forestry Rymanów in terms of tourist attractiveness	40
<i>Witold Warcholik, Marcin Semczuk, Marcin Baranowski</i> Tourist traffic monitoring in the Pieniny National Park (results of tourist traffic monitoring carried out in the years 2007–2009 by SKNG UP)	49
EDUCATIONAL-DIDACTIC ISSUES	
<i>Joanna Ćwiągata, Paweł Kramarz</i> The structure of municipal wastes in various administrative units of the Pedagogical University of Kraków	58
<i>Renata Gasek</i> Didactic route as a form of learning about pupils' closest neighbourhood – on the example of a didactic route in Zalas	68
<i>Piotr Kutiak</i> Municipal Park – the green heart of Sanok	84
<i>Wiktor Osuch</i> Environmental education in school and society versus regional development	92

<i>Wanda Wilczyńska-Michalik, Karolina Świder</i> Principles of the Ecological Footprint Analysis and examples of its calculation for cities	103
GEOMORPHOLOGICAL AND METEOROLOGICAL ISSUES	
<i>Jan Reder, Józef Superson, Tadeusz Król</i> Phases of settlements in the western part of Nałęczów Plateau and their impact on sediments in the bottom of Bystra Valley	126
<i>Jan Rodzik, Mirosław Krukowski, Piotr Zagórski</i> Development of the midfield road gully based on pedological investigations and GPS measurements	137
<i>Józef Superson, Renata Kołodyńska-Gawrysiak, Piotr Pajdowski</i> The natural and anthropogenic determinants of the development of gully systems in the Rogów area (Lublin Upland)	148
<i>Eligiusz Brzeźniak</i> Maximum sums of daily precipitation in Ojców (Prądnik Valley)	160
